An October traffic stop in Cottonwood resulted in an arrest of a 24-year-old man for possession and possession-for-sale of the narcotic fentanyl. A news release from the Yavapai County Sheriff's Office (YCSO) reported that a sheriff's deputy stopped a car near the intersection of Ash and 12th streets in Cottonwood for a moving violation at about 1:15 p.m. Oct. 28.

Based on the deputy's suspicions, a YCSO K9 unit was requested to conduct a "free air" sniff, said the news release.

When the K9 deputy arrived, his K9 dog alerted to the odor of illicit narcotic in Wolf's car. Deputies then conducted a search for the origin of the odor, finding a container in a coffee cup with about 30 blue fentanyl pills and a piece of tin foil with fentanyl residue, according to the news release.

<https://www.dcourier.com/news/2020/nov/02/prescott-valley-man-sentenced-10-years-prison-deal/>

Originally Published: November 2, 2020 8:39 p.m. A 28-year-old Prescott Valley man late this past week was sentenced to 10 years of flat time in Arizona State Prison for selling the synthetic opioid fentanyl, the Yavapai County Attorney's Office reported in an Oct. 30 news release. Jeffrey Richard Wagner, sentenced at Yavapai County Superior Court in Prescott, had pled guilty on Oct. 23 to two counts of possession of narcotic drugs for sale, including fentanyl and heroin, with one prior conviction of possession of drug paraphernalia, and misconduct involving weapons. Under a flat-time sentence, Wagner is ineligible for suspension, commutation of his sentence, probation, pardon, parole, work furlough or release until he serves his entire 10-year prison term. Officials with Partners Against Narcotics Trafficking (PANT), which is Yavapai County's multiagency drug task force, say that in recent months before May they began investigating Wagner's possible drug activity. Detectives say they had learned Wagner was driving to Phoenix to buy drugs and sell powder fentanyl, mimic M-30 pills laced with fentanyl, and heroin from his Prescott Valley residence. PANT officers say they searched Wagner's Prescott Valley residence on May 1 and found about 217 M-30 fentanyl pills, 10 grams of pure fentanyl powder, heroin, methamphetamine, clonazepam pills, and used syringes. PANT officers added that they found items associated with drug sales, including multiple surveillance cameras mounted inside and outside of the residence, a pill

press, bindles for packaging, and cash. Officers also confiscated a handgun, a rifle and a 12-gauge shotgun, which had been reported stolen, and “a large quantity of rounds,” the release stated.

<https://www.dcourier.com/news/2020/nov/07/girl-dies-overdose-involving-suspected-fentanyl-la/>

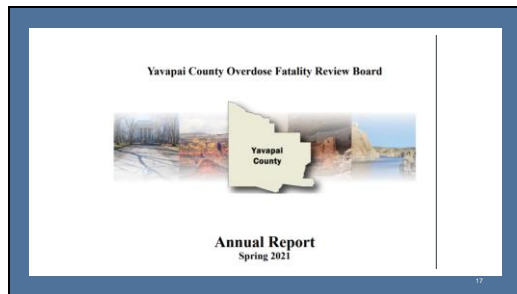

Originally Published: November 7, 2020 9:32 p.m

On Oct. 20, Prescott Valley Police Officers (PVPD) and detectives were called to a home where a 14-year-old girl died of an overdose involving suspected counterfeit pills containing fentanyl.

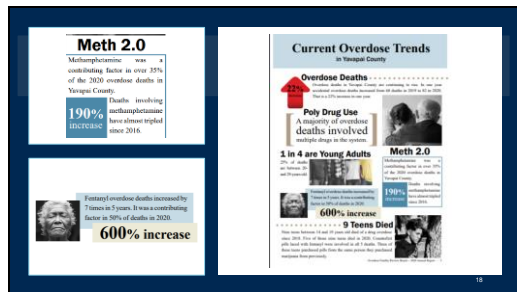

PVPD Detectives notified the Partners Against Narcotics Trafficking (PANT) task force and detectives arrived to assist in identifying those who provided the pills to the victim in consideration of possible prosecution. Working with PVPD detectives, PANT detectives obtained additional information from multiple community sources of people likely involved in the narcotic supply chain, along with social media activity all identifying several juveniles, including 18-year-old Aaron Lundsford Schmit of Prescott, according to a news release from the Yavapai County Sheriff’s Office. Tracking the evidence and sources, detectives learned that Lundsford Schmit and some of the

juveniles named were likely responsible in providing fentanyl-laced pills to the 14-year-old victim. Based on the information that pills supplied to the 14-year-old may have come from this group, detectives found and reviewed social media posts showing Lundsford Schmit offering to sell THC candy ropes and several blue oval pills consistent with mimic pills that commonly contain fentanyl.

..... **9 Teens Died**

Nine teens between 14 and 19 years old died of a drug overdose since 2018. Five of those nine teens died in 2020. Counterfeit pills laced with fentanyl were involved in all 5 deaths. Three of these teens purchased pills from the same person they purchased marijuana from previously.

Pretrial Diversion Program

YAVAPAI COUNTY COURT HOUSE

Home Protocols Programs Public Disclosures FAQs News Room Forms Contact Us

The Yavapai County Attorney's Office has established a Pretrial Diversion Program to provide an alternative method of holding low level offenders, whose offense has a nexus to substance abuse, accountable for violations of the law through participation in an evidence-based education or treatment program that targets factors related to recidivism. The Program effectively redirects limited criminal justice resources, brings about participants' rehabilitation, and gives rise to safer communities. The Program diverts criminal cases from formal court proceedings and allows for the dismissal of charges if the Program is successfully completed. For more information about the program, please contact Dana Covent at [dcovent@yavapainaz.gov](mailto:dcovent@yavapainaz.gov)
