# Nlets By the Numbers

- YTD Total Transactions through May 2021 - 1,256,504,176
- Network Uptime - 100%
- System Uptime - 99.998%
- Average Round Trip Message Response Time- 1.85 seconds

A large part of what our network is used for is driver and vehicle information as well as criminal history information; however, we do so much more!

# Disaster Recovery Site

---

- Warm back up site
- Switch between Phoenix and Plano regularly

## Status Update:

Nlets has talked with NCMEC about how we can work more closely to share relevant human trafficking information with law enforcement. More calls to be held with them. NCMEC is an Associate Member of Nlets.

Nlets has talked with Polaris regarding how we could possibly share the information they are gathering with law enforcement. Learned they send most of what they gather to NCMEC. They are not an Nlets member so our plan is to continuing working with NCMEC on this initiative.

Nlets conducted a survey of its membership to determine interest and capability of sharing this information with other states. Consensus was that all states are interested in sharing and most are able/willing to share. Some indicated there may be restrictions on sharing the information outside of their state.

## Nlets message keys relevant to human trafficking

- State criminal history records
- State warrants (not all warrants are in NCIC)
- State sex offender information
- State parole, probation, corrections information
- State concealed weapons permit information

THANK  
YOU
